

## Waynesboro City Council Agenda Briefing

<b>Meeting Date:</b>	May 22, 2023	<b>Staff/Council Member(s):</b> Cameron S. McCormick, C.P.A. Assistant City Manager - Finance
<b>Agenda Item #</b>	13	
<b>Ordinance#</b>		
<b>Department:</b>	Legal and Finance	
<b>Subject:</b>	Stormwater Code Maintenance	

### Background:

The staff and legal team periodically review the City Code for clarity and correctness. During a recent review, the legal team noted code section 30-58 needed to be updated for easier application and user clarity. The main change is that subsection (g) (formerly subsection (h)(3)) has been updated to improve the organization of section 30-58 and to show the rate schedule broken out by type of property, as well as calling out the biannual billing. This ordinance does not change the prescribed rates adopted during the 2024 budget cycle.

**City Manager's Recommendation:** No public hearing is necessary. However, this ordinance does require two readings. The City Manager recommends introducing and discussing the ordinance as presented with final consideration at your next business meeting.

**Suggested Motion(s):** I move to introduce the ordinance as presented.
