Description: Rosser Avenue, Gwynne Avenue, and Poland Street, as shown on attached plans Dominion Energy's (Dominion) Strategic Underground Program aims to bury the most vulnerable tap lines servicing neighborhoods and homes to reduce the number of repairs needed to restore power following major storms. As part of this effort, the tap line servicing Rosser Avenue, Gwynne Avenue, and Poland Street has been identified as one such outage-prone line. Dominion Energy is proposing to remove the overhead tap line and replace it with underground cable in conduit using horizontal directional drilling. add an underground crossing on Fairway Drive (Underground Installation 5).

Asphalt to be removed (SQ FT):: . **Concrete to be removed (SQ FT)::** . **Total Area to disturbed (SQ FT)::** .
Description: Jefferson Avenue, as shown on attached plans Dominion Energy Virginia's (Dominion Energy) Strategic Underground Program aims to bury the most vulnerable tap lines servicing neighborhoods and homes to reduce the number of repairs needed to restore power following major storms. As part of this effort, the tap line servicing Jefferson Avenue has been identified as one such outage-prone line. Dominion Energy is proposing to remove the overhead tap line and replace it with underground cable in conduit using horizontal directional drilling.
